

Home Controller HC-500 Control Your Music, Control Your Home

The Control4® Home Controller HC-500 makes it easy for everyone to instantly enjoy their favorite music wherever they are, whenever they want. The HC-500 digitally stores the music collections of everyone in the family and delivers simultaneous audio streams over a home network. Utilizing online music recognition, the HC-500 makes managing music collections a breeze. Music can easily be selected by artist, song, genre, or even album cover art.

But it doesn't stop there. The HC-500 is also the center of a complete home automation system. It's a sophisticated yet simple platform to control lighting, security, temperature and more throughout the home.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Serious Music Server

- **160 GB hard drive** — Store the entire family's music collections — approximately 2,000 CDs.
- **Multi-room audio** — Distribute analog audio to three separate zones.
- **Digital audio streaming** — Stream audio throughout the house via the home network.
- **Online music recognition** — Catalog an entire digital music collection and search by artist, genre, song, or album cover art.
- **Customized playlists** — Easily create playlists for every occasion and mood.

Powerful Home Automation Controller

- **Complete control** — Full complement of IR, contact, relay, and serial connections to control the whole house.
- **Standards-based control** — Devices throughout the home are controlled via communication over ZigBee™ (802.15.4) mesh networking and Ethernet (802.3).
- **Seamless integration** — Works with Control4 and a comprehensive array of third-party components.

Easy to Set Up and Use

- **Multiple interfaces** — Uses Control4 Touch Screens, Keypads, System Remote Controls, or the included on-screen display.
- **Connections made easy** — Clearly marked connectors on the back of the device make setup easy.
- **High definition** — HD on-screen navigation provides large, bright, clear 16x9 graphics.

***Rip** your music CDs onto the HC-500 in minutes. **Import** MP3s from your PC.*

***Play** your favorite music by connecting your handheld MP3 player. All while running your entire home automation system.*
